

740 Mirage

Sculpted electric performance, up to 137 kW of silent power.

LENGTH	POWER	PERSONS	PRICE
7.47 m	50 – 137 kW	6	On Request

Frauscher is once more redefining the luxury electric yacht segment with the introduction of the 740 Mirage. The name “Mirage” refers to an optical phenomenon, as well as high-performance aircraft, giving the boat an aura of mystery. Starting from the generous bathing platform at the stern, guests can reach the cockpit area through walkthrough without walking over the cushions. The cockpit area features an L-shaped bench with two foldable backrests. The co-pilot’s seat backrest can be folded to create a sheltered chaise longue and by flipping down the main backrest the sunbed can be enlarged as well. The big cushion in the cabin can also be fastened on the front outside deck to create an additional sunbathing area. Numerous options including a Bluetooth equipped audio system, fridge and bimini top, create a boat that is much more versatile than the breathtaking, minimal design initially suggests.

HIGHLIGHTS

- Fully electric Torqeedo drive — silent and emission-free
- Ideal for alpine lakes and low-emission zones
- Handcrafted in Austria with teak and premium upholstery
- Frauscher design DNA in its purest form

DIMENSIONS

Length	7.47 m
